PROFESSIONAL SUMMARY

Senior Front-End Developer with 14+ years of experience designing and developing scalable, user-centric web applications. Expertise in Angular, React, Stencil, Lit, and Nx Monorepo, with a strong focus on reusable UI components, design systems, performance optimization, and Micro Front-End architectures. Proven track record of leading development teams and delivering enterprise-scale digital solutions across banking, taxation, and financial services domains.

CORE TECHNICAL SKILLS

- **Frameworks & Libraries:** Angular, React, RxJS, jQuery, Angular Material, Stencil, Lit, Tailwind CSS, Bootstrap, Storybook
 - **Languages:** JavaScript, TypeScript, PHP
 - **Testing & Automation:** Karma, Jasmine, Protractor, Cucumber, Jest, Playwright, SonarQube, Loki
 - **CI/CD & Dev Ops:** Azure Pipelines and Jenkins
 - **Web Technologies:** HTML5, CSS3, Bootstrap, Sass, AJAX
 - **Version Control:** Git, SVN, Perforce, Bitbucket, GitLab
 - **Project Management:** JIRA, Rally, Azure Boards
 - **Databases:** MySQL
-

UI DEVELOPMENT EXPERTISE

- **Responsive Design:** Building adaptive layouts for seamless user experiences across devices.
- **Cross-Browser Compatibility:** Ensuring consistent UI across all major browsers (Chrome, Firefox, Safari, Edge).
- **Performance Optimization:** Code Splitting & Lazy Loading for faster loads and reduced resource consumption.
- **Web Accessibility:** Building WCAG 2.1-compliant interfaces and leveraging Axe DevTools for accessibility testing and audits.
- **UI Testing:** Writing unit/integration tests (Jest, Cypress, Jasmine, Playwright) and performing visual regression testing with Loki.
- **State Management:** Implementing NgRx (Angular) and Redux (React) for efficient data flow across applications.
- **Componentization:** Building reusable UI components and design systems for consistency and maintainability.

- **CI/CD Pipelines (Azure DevOps):** Automated build, testing, linting, security scanning, and deployment to Static Web Apps and CDNs.

PROFESSIONAL EXPERIENCE

Standard Chartered Bank | India, Chennai

Frontend Developer | Apr 2025– Present

Role: Development Lead – CIB

- Led UI development initiatives as a hands-on Development Lead for Corporate & Investment Banking (CIB) applications.
- Own end-to-end UI deliverables: architecture, implementation, code review, testing & deployment.
- Mentor and guide UI developers on best practices, clean code, performance & accessibility.
- Collaborate with Product Owners to align requirements, refine stories & ensure strong UX.
- Act as interim Scrum Master when needed: facilitate stand-ups, sprint planning, retros & remove blockers.
- Coordinate & lead both frontend and backend efforts during critical delivery phases.
- Drive technical excellence: design systems, component reusability, security & regulatory compliance.

Julius Baer | Singapore

Frontend Developer | Jul 2024 – Mar 2025

Role: Senior Frontend Developer – Design System Team

- Developed reusable web components using Stencil, ensuring seamless cross-framework compatibility with Angular and React.
- Contributed to the Zafire Design System, standardizing UI/UX across products.
- Supported application developers in using the Zafire Design System and maintained the library.
- Utilized Nx Monorepo to manage multiple Angular and React applications.

Kris Infotech Pte Ltd | Singapore

Front-End Lead Developer | Nov 2022 – Jul 2024

- Led front-end development for the Tax Portal for IRAS, using Angular, NGRX, and Micro Front-End architecture.
- Enhanced the portal's UI and integrated state management via NGRX.
- Developed automated test cases using Jasmine and Karma.
- Mentored junior developers and conducted code reviews.

Tata Consultancy Services | Singapore & India

Assistant Consultant | Aug 2016 – Nov 2022

- Led UI development for Iserve at DBS Bank, migrating AngularJS components to Angular 8.

- Designed reusable UI components and ensured smooth integration with back-end services.
- Automated UI validation using Karma and Jasmine.

Virtusa Software Services | India

Senior Engineer | Feb 2015 – Apr 2016

- Worked as a Senior Engineer, contributing to multiple projects involving UI development and integration.

Changepond Technologies Pvt Ltd | India

Software Developer | Oct 2011 – Jan 2015

- Worked as a Software Developer, involved in the development and maintenance of various applications.

KEY PROJECTS

Zafire Design System – Julius Baer

Role: Senior Frontend Developer

Technologies: Stencil, Angular, React, Nx Mono repo

- Contributed to the development of a reusable design system aimed at standardizing UI elements across multiple teams within Julius Baer.
- Developed new components in Stencil that work seamlessly in both Angular and React applications.
- Guided teams using Zafire components, ensuring developers adhered to the system's design guidelines.
- Participated in code reviews to ensure high-quality, maintainable code.

Tax Portal – IRAS | Singapore

Role: Front-End Lead Developer

Technologies: Angular, NGRX, HTML5, CSS3, Micro Front-End

- Led the front-end architecture and design of a tax management portal for IRAS, implementing a Micro Front-End architecture using Single-SPA and Webpack Module Federation..
- Delivered reusable components and optimized UI performance to enhance the user experience.
- Integrated NGRX for state management, ensuring efficient data handling across the application.

Iserve – DBS Bank | Singapore

Role: Senior Developer

Technologies: Angular 8, HTML5, CSS3, Saas, Jenkins, AngularJS

- Spearheaded the development of reusable UI components in Angular 8, improving modularity and scalability.

- Developed custom widgets and services using Angular libraries to enhance application functionality.
- Automated UI validation and wrote comprehensive unit and end-to-end tests to ensure system stability.
- Managed the migration of legacy AngularJS modules to Angular 8, modernizing the entire application.

Virtual Brain Water Re-platforming (VBW) – Sembcorp Industries | Singapore

Role: Frontend Lead Developer

Technologies: Angular 6, Angular Material Design, Jasmine, Karma, HTML5, CSS3

- Led the UI development team, designing reusable components for the VBW water management platform.
- Integrated Single Sign-On (SSO) functionality using ADAL for secure authentication.
- Developed comprehensive unit and end-to-end test suites using Jasmine, Karma, and Protractor, improving application reliability and release quality.

EDUCATION

Master of Computer Applications (MCA)

Prathyusha Institute of Technologies and Management, Anna University | 2008 - 2011

Bachelor of Science in Electronics

DRBCCC Hindu College of Arts and Science, Madras University | 2005 - 2008

CERTIFICATIONS & AWARDS

- Microsoft Certified: HTML5, CSS3, and JavaScript
 - Pixel Perfectionist Award – SE Hive Awards 2026
-
